Connettore di alimentazione (non incluso): cod. ACBNRBI-CNLIVE (bianco) / ACBNRNE-CNLIVE (nero)

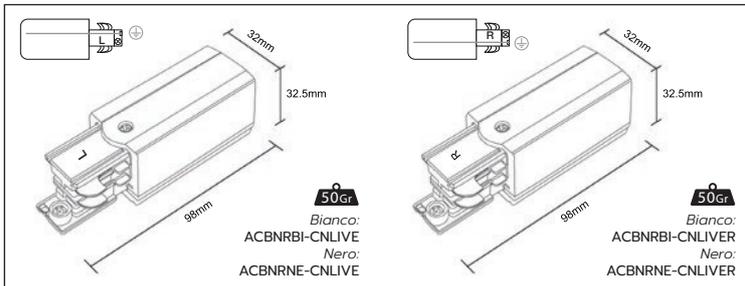

220-230VAC 50/60Hz - 10A
Tolleranza peso su un binario max 9kg

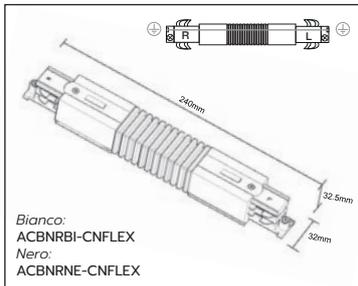

INDICAZIONI DI SICUREZZA Prima di effettuare qualsiasi intervento su impianti elettrici, togliere l'alimentazione elettrica (fusibile/interruttore generale) e constatare l'effettiva assenza di tensione. L'installazione dell'apparecchio (in particolare all'impianto elettrico domestico) deve essere eseguita da personale specializzato abilitato ai sensi della normativa nazionale in materia di impianti.

NOTES OF SAFETY Prior to working on any electrical equipment, please remember to keep off the electrical supply (remove fuse/switch off at the mains switch). Check there is no voltage present. The installation of the unit (in particular home power supply) must be performed by authorized specialists in accordance with the national legislation in the field of plants.
